by PTAK Bros.

Embrace the Variety | Embrace the Curves | Embrace the Sales

WHAT IS LOVING EMBRACE?

Ptak developed, patented and introduced the Loving Embrace contour wedding band tool in 2012. It was brought to market so that Ptak could help jewelers overcome the everyday challenge of finding a wedding band that sits flush to an engagement ring without having the hassle of ordering custom bands. Jewelers across the country quickly learned of the tool and began adding it to their arsenals. Just as you need a tool to size a customer's finger, you need a tool to check the curvature of a client's engagement ring.

Since that time, demand for custom design, quick delivery, and great service has sky-rocketed. The Loving Embrace program was introduced, and evolved into a 25 customizable styles which were designed to fit all styles of engagement rings. The Loving Embrace kit is a must have for all jewelers as it simplifies the wedding band selection process and allows retailers to confidently promise quick delivery of a quality wedding band.

PLAIN WEDDING BANDS

FLAT CONTOUR WEDDING BAND

The Flat contour wedding band is an exact duplicate of the rings on the measuring tool. This style is available in curves 1 thru 12 and is about 2.2mm wide. Custom width; available. upon request. 21 different hind engraved patterns are available on these bands.

HALF ROUND CONTOUR WEDDING BAND

The Half round wedding band series is available in curves 1 thru 12 and is about 2mm wide. Custom widths available upon request. These rings make great stackable rings!

CONCAVE CONTOUR WEDDING BAND

The concave wedding band series is available in curves 1 thru 12 and is about 4mm wide. Custom widths available upon request. This style is actually the plain version of the CWB-Q which features .30 CT of pave diamonds.

ADAPTER CONTOUR WEDDING BAND

The adapter wedding band series is available in curves 1 thru 12 and is about 2mm wide. In my opinion, the adapter ring is the coolest of the whole collection! This ring allows a flat wedding band to sit flush next to a ring which otherwise would require a curve. Great add-on item and No Gaps!

LOVING EMBRACE BRIDAL

With rising demand for custom bridal, The Loving Embrace Line features a fully customizable line of Engagement rings. All Loving Embrace Engagement rings are engineered to perfectly match the curved band system, and can be customized and interchanged with the entire system. When a client selects a Loving Embrace Bridal ring, they can choose any of the 25 style wedding bands, which will sit perfectly flush. To simplify the process, the matching curved band number is engraved in all samples, along with the style number. The collection is growing and will be updated to represent all modern trends. Ptak will accommodate request for all center stone shapes and sizes, and will ensure a flush wedding band will be available for present or future orders.

The LE BRIDAL Display \$300

The Loving Embrace Badge is proudly displayed on the Bridal display kit. The compact and bold display will allow you to easily access and display the brand next to your Contour display, allowing for a clear concise presentation.

Loving Embrace replica allows for consumers to view and examine the quality of the brand, and comes clearly priced with triple key pricing in all metal markets. Prices on tags are indicated as per metal markets displayed in this PDF. Starting June 14th, 2018, All Loving Embrace Replica will be credited back as you accrue sales. A \$5 credit will be earned toward new replica for every \$100 spent on Live LE merchandise on a per annum basis. If at the end of the year, you build \$50,000 in sales, you will earn \$2500 in replica credit to further build the brand.

LOVING EMBRACE PAVÉ COLLECTION

The Petite Pave collection offers an opportunity to deliver a high quality diamond wedding band on demand. The rings in this collection are polished to perfection, and our master setters signature can be seen upon close inspection. Whether you are shopping by price point, total diamond weight, or style you will certainly have a hard time choosing between one of our gorgeous petite pave bands. If required, these straight bands may be ordered in curves 1-12 to ensure a perfect fit, and a happy bride.

Cathedral engagement rings are one of the most popular types of engagement ring band styles. They are elegant, classic, and versatile. The Loving Embrace collection is available in 5 different styles, including Plain, Shared Prong, Pave, Channel, and Bead in Channel. Matching weddings complete the look. Available with or without Peg Settings size and shape center stones, so you may confidently satisfy the demand for a unique, and special Engagement ring.

LOVING EMBRACE REPLICA

Loving Embrace Replica was designed to give the jeweler the tools to compete in the dynamic and competitive retail jewelers market. It is our goal to help the jeweler as gain an edge, and we understand the cost of the samples can be burdensome and prohibitive. With Ptak as your manufacturing partner, you have the peace of mind knowing that all samples shown are fully customizable, and will be delivered quickly and at a fair price. We want you to have all the tools at your disposal to give the consumer the confidence to commit to the sale, and it is our findings that having the full representation of the brand will give you the best chance of doing so. Your Ptak representative can inform you that we are offering a 5% rebate program toward future replica. Every calendar year, your store will be credited with a 5% rebate which can be used to build the brand further and place new trendy, freshly styled replica.
